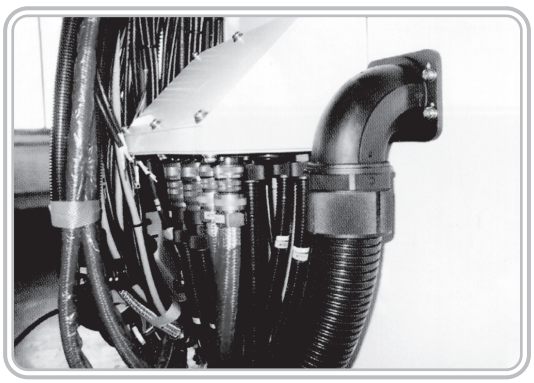
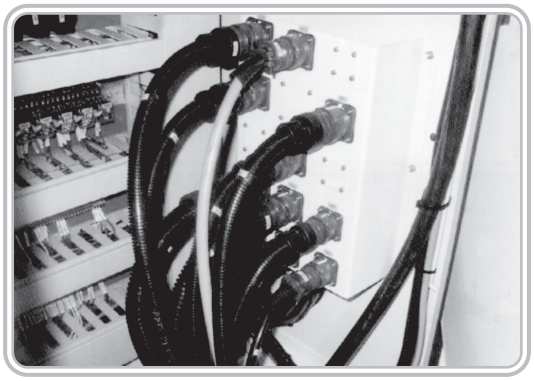
Using material of high quality

CPSFLEX & CPSFIX Application

- CPSFIX는 밀집된 구조에 용이합니다.
  CPSFIX is available for Use in dense Areas.
- 다양한 형태의 커넥터와 캐넌접속용 커넥터를 생산하므로 CPSFIX는 어떠한 환경에도 적용될수 있습니다.
  CPSFIX can be applied in any circumstance, since we are producing diverse forms.
- CP SYSTEM은 PF,PG, M, NPT, UNEF등의 다양한 나사규격에 맞는 커넥터를 구비하고 있습니다.
  We are fully equipped with diverse thread standard products, NPT, UNEF etc.



- CPSFIX 는 뛰어난 방수성을 가지고 있어 CPSFLEX와 결합했을 때 IP67을 유지하면서 산업 전반적으로 적용될 수 있습니다.
  CPSFIX has excellent water proof. It is applied to the overall industry, maintaining IP 67,when it combines with CPSFLEX.
- CPSFIX와 CPSFLEX는 복잡한 공간에서 케이블을 효율적으로 보호합니다.
  CPSFIX and CPSFLEX protect cables In crowded spaces effectively.
- CPSFLEX는 자외선에 강하며 자동차 용접라인과 엔진라인, 크레인 등 에서 사용될 수 있습니다.
  CPSFLEX, which can bear ultraviolet rays, is applied to the vehicle welding line, engine line and crane.



- CPSFLEX와 CPSFIX는 뛰어난 난연효과와 무독성으로 자기부상열차와 전동차에 적용되고 있으며 세계적으로 품질을 인정받아 해외 프로젝트에 채택되고 있습니다.
  CPSFLEX and CPSFIX are applied to Magnetic Levitation Train and Electric Tramway with excellent flame retardant and non-toxic effect. The quality is approved worldwide and they are Widely to the overseas project.
- CPSFLEX는 영하40°에서 영상 150°까지 견딜 수 있어 외부에서 사용이 가능합니다. 또한 당사는 난연뿐 아니라 비난연 등의 다양한 제품을 완벽하게 구비하고 있습니다.
  CPSFLEX can bear -40 degree to +150 degree and can be used outside. We are fully equipped with diverse products with flame retardant or non-flame retardant etc.

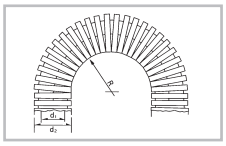
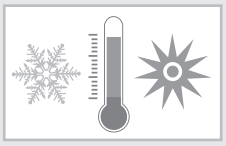
Advantages of using CPSFLEX® & CPSFIX®

1. **Cost Saving**

2. **More Flexible**



3. **Stand for Hot & Cold Temperature**



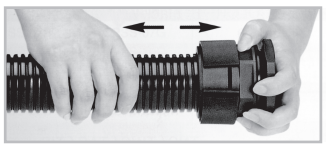
4. **Light Weight**

5. **High Impact**

6. **Self Extinguish**

7. **Chemical Resistance**

8. **Easy to Fix & Release**



9. **Recycle & Eco-Friendly**

10. **Weatherproof**
